Experience

Business Analyst | CapitalSources.ca | Canada (Full-Time) **09/2024 - 04/2025**

- Gathered user requirements, developed logical and physical specifications, and created technical documentation for proprietary database and CRM systems.
- Developed a web-application using ReactJS and NodeJS to facilitate CRUD operations on the database, enabling non-technical users to access and manage data efficiently.
- Built and customized a CRM system on the ZOHO platform to manage leads, contacts, accounts, and deals across capital and property markets.
- Analyzed property data using Power BI to generate market-level insights and visualizations improving data-driven decision-making and supporting marketing initiatives.
- Streamlined processes by automating tasks and developing templates to support CIM report production, reducing manual work and enhancing overall efficiency.

Sales Advisor | SportChek | Canada (Part-Time) **08/2024 - Present**

- Guided customers in selecting the right footwear based on fit, function, and personal preference, enhancing the overall shopping experience and contributing to sales goals.
- Supported back-end operations by organizing stockrooms, tagging and categorizing merchandise, performing inventory checks, and setting up displays to optimize store efficiency.

Software Engineer | Furtim Technologies | India (Full-Time) **10/2022 - 07/2023**

- Billed 1000+ hours as a technical engineer in the functional consulting department at Wipro, developing user interfaces for business web-applications for US-based clients using AngularJS.
- Developed REST APIs for the company's entry management system using NodeJS.

Education

Haskayne School of Business, University of Calgary | Canada **08/2023 - 08/2024**

Master of Management

Indian Institute of Information Technology, Kancheepuram | India **07/2016 - 07/2021**

Bachelor & Master of Technology in Computer Science & Engineering
